

## Project 3, Status Report 2

### Tasks completed since the previous status report:

- Researched on potential dataset that could be used
- Discussed each idea and ranked top 3 ideas within the group
- Drafted 4 storyboards for the project

### What we did as a group since the previous status report:

- Chose the parts of the dataset that we want to use
- Settled on a storyline for the project

\* Storyboard drawings included in Appendix

### Tasks to be completed by the next status report:

- Look deeply into the dataset, understand the data, and clean the data if needed
- Implement the scrolling page
- Search second dataset

### Based on tasks above, parts to be completed individually:

Puran Zhang (pz75)

- Look for dataset with broader age scope (more generalizable)
- Figure out the “scrolling page” functionality

Jiangjie Man (jm2559)

- Preprocess the data
- Start the basic html for the web page

Pengcheng Zhang (pz84)

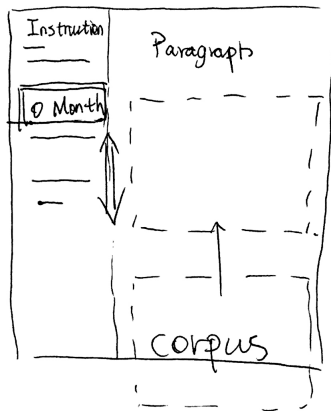

- Search for simple, readable story for kid
- Think about how to combine start chart (word network) with the mail panel

Xiuyan Xin (xx254)

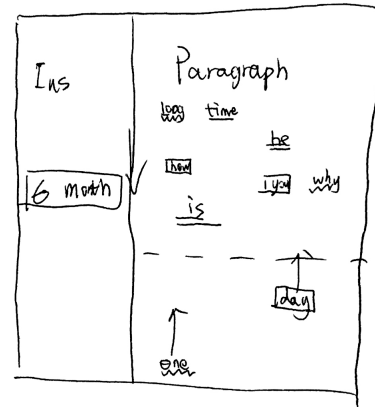

- Assign the part-of-speech to the vocabulary
- Figure out the word-flying functionality
